

1 **Resolution of Implementation to Help Achieve State Mandated Reduction in Greenhouse Gas**
2 **Emissions and Support the Increase in Renewable Energy Resources in Connecticut**

3 Submitted by the Environmental Ministry Team of the Connecticut Conference of the United Church of Christ,
4 The UCC in Cornwall, Mystic Congregational Church, Church of Christ, Norfolk, First Congregational
5 Church of Old Lyme and the Mission 4/1 Earth Ministry of Church of Christ in Goshen, Mystic
6 Congregational Church

7 Whereas, the earth and all on it belongs to God (Ps 24:1) over which humans have been given
8 stewardship (Ge 1:26) and gifted with the ability to imagine a new vision of a sustainable
9 Creation, deemed necessary for the survival of the Earth and all the Earth's peoples (Re 21:1);
10 and

11
12 Whereas, responsible stewardship of Creation is integral to Christian discipleship (Connecticut
13 Conference resolutions 1973, 1977, 1979, 1981, 1989, 2008 and General Synod resolutions 2005,
14 2007, 2013, 2015) and as it calls us with ever increasing urgency to commit to compassionate
15 action on behalf all Creation for the sake of our generation and of all the generations who follow;
16 and

17
18 Whereas, only by reducing greenhouse gas emissions, developing alternative energy sources in
19 Connecticut and responsibly disposing of waste products, will we provide for a sustainable future
20 that protects both the climate, the natural environment and the livelihoods of working people in
21 Connecticut; and

22
23 Whereas, the state's 2008 Global Warming Solutions Act mandates reduction of greenhouse gas
24 emissions in the state to 80 percent below 2001 levels by 2050;

25
26 Therefore, be it resolved, that we, the delegates to the 149th Annual Meeting of the Connecticut
27 Conference of the UCC, declare it imperative that we encourage congregations, individuals,
28 businesses and other entities to act to reduce their own levels of greenhouse gas emissions to
29 assist in achieving the State of Connecticut mandated goal; and

30
31 Be it further resolved, that we, the delegates to the 149th Annual Meeting of the Connecticut Conference
32 of the UCC, support state legislation to rapidly increase renewable energy resources in
33 Connecticut to help reduce greenhouse gas emissions in the state and to fund job re-training for
34 the workers in the oil and gas industry; and

35
36 Be it further resolved, that we, the delegates to the 149th Annual Meeting of the Connecticut Conference
37 of the UCC, bid our Conference leaders, our Legislative Advocate and churches to support the
38 effort of the Governor's Council on Climate Change, which has been charged with developing a
39 plan to meet the state's mandated goal of 10 per cent reduction of greenhouse gas emissions
40 below 1990 levels by 2020 and 80 percent reduction of greenhouse gas emissions below 2001
41 levels by 2050; and

42
43 Be it finally resolved, that for the furtherance of this goal, we, the delegates to the 149th Annual Meeting
44 of the Connecticut Conference of the UCC, call upon all settings of the church including
45 conference staff, the Legislative Advocate, the Environmental Ministry Team and congregations
46 to keep ourselves informed of progress, support the education of clergy and laity, and take every
47 opportunity to sharpen the focus on what must be our individual and collective vision of a
48 sustainable Creation for our generation and future generations and the whole fabric of earthly life.
49
